**RYAN** is 5 years old and a second-year camper at Big Blue Summer.

Now that Ryan is ready to start kindergarten, he's graduated to the Kinder Cabin where he'll experience a balance between the structured day of his older peers, and the freeform play of a Mini.

Kinders start their mornings with a leveled swim lesson. While refueling with a snack, his counselors read a story to support reading readiness. Then they head to their first activity of the morning: Outdoor Adventures. Ryan helps filter stream water and examines what he finds.

In the Minis' room, Ryan and his friends decide to dress up like superheroes and save the day until it's time to wash hands for lunch. After lunch, Ryan's group has their High Tech Logic rotation, where they practice communicating with computers and robots by using some basic code.
